

The 21st International Symposium on Polar Sciences: *Polar Region as a Key Observatory for the Changing Globe and Beyond*

May 19-20, 2015

Korea Polar Research Institute, Songdo, Incheon
Republic of Korea

First Circular

We are pleased to announce that Korea Polar Research Institute will hold the 21st International Symposium on Polar Sciences in Songdo, Incheon, Republic of Korea on May 19-20, 2015.

The International Symposium on Polar Sciences has been held every year since the launch of our Antarctic research and has served to bring polar scientists together providing an international forum for exchanging, sharing ideas and opinions.

The theme of the 2015 symposium is “Polar Region as a Key Observatory for the Changing Globe and Beyond” and we cordially invite you to share your knowledge towards the changes in the polar region.

The overview and preliminary program of “The 21st International Symposium on Polar Sciences” will be provided on the symposium website (<http://symposium.kopri.re.kr>), from January 23rd, 2015.

* Abstract Submission: January 26th–March 20th, 2015

* 2nd Circular: End of February, 2015

We are looking forward to your participation.

Dr. Yeadong KIM
President
Korea Polar Research Institute (KOPRI)
